

Landscape Architect / Landscape Designer
(2+ years experience)

Artemis Landscape Architects is an award winning, Connecticut based landscape architecture studio, renowned for creating exceptional residential landscapes throughout the Northeast.

This is a unique opportunity for a detail oriented candidate with creative imagination, talent and enthusiasm, to join us as a valued team member in creating beautiful, sustainable landscapes, connecting people with nature in their everyday lives.

We offer an attractive compensation package, with opportunities for unlimited growth and advancement.

REQUIREMENTS INCLUDE:

- BLA from an accredited landscape architecture or architecture program and/or licensed professional Landscape Architect
- 2+ years of experience preferred
- Proficiency in AutoCAD/or Vectorworks Landmark
- Proficiency with Adobe Creative Suite, SketchUp
- Ability to envision the big picture as well as pay close attention to detail
- Collaborative team member with a positive attitude and enthusiasm for high level design
- An understanding (and passion for) Northeast plant materials/planting design
- Work efficiently with high degree of accuracy
- Creative problem solver
- Field visits required and encouraged, vehicle a must.

KEY RESPONSIBILITIES:

- Develop a clear understanding of site characteristics and local regulatory requirements as part of the initial design process
- Development of schematic design presentation graphics, including hand rendering and 3D graphic rendering
- Development of detailed construction documentation, project coordination, and project administration and field reports for multiple projects simultaneously
- Maintain clear and effective verbal and written communication with clients, contractors, consultants and team members

Please submit a cover letter describing your interest in joining our team along with salary requirements, resume and portfolio (or link to online portfolio) to:
