Landscape Architect / Designer

Kim Hoyt Architect is a small NYC based practice specializing in landscape architecture and architecture with a strong commitment to thoughtful, innovative design that responds to the natural and built environment.

Required Skills:

- Is eager to be a part of a design process that results in outstanding built work with a high level of detailing
- Proficient in AutoCAD and understanding of generating construction documents
- Highly organized with strong written and verbal communication skills
- Experience contributing to complex projects, from schematic design through construction documentation and implementation
- Undergraduate or graduate degree from an accredited landscape architecture or architecture program

Preferred Skills:

- Experience in high-end garden and urban design
- A working knowledge of plant material
- Professional licensure

Salary: Position can be part-time or full-time. Salary is commensurate with experience: \$40 - \$50/hr. Position for immediate hire.

To Apply: Please email resume and project examples to kim.hoyt@khoyt.com
